PROFESSIONAL SUMMARY

Data-focused professional with 3+ years of experience in SQL, Python, and analytics. Worked in the Data & Analytics team at Infosys, supporting data workflows and system performance. Skilled in machine learning, Power BI, and building end-to-end applications using Flask and React. Focused on practical, real-world data solutions.

EDUCATION

Master of Computer Science (MCS)	-	Algoma University · Canada · 2026
Postgraduate Certificate in Artificial Intelligence	-	Georgian College · Canada · 2024
Bachelor of Computer Science & Engineering (B.Tech)	-	KTU (Kerala Technological University) · India · 2021

TECHNICAL SKILLS

Languages: Python, SQL, R, JavaScript	Web & Backend: Flask, React, HTML/CSS
Machine Learning: Scikit-learn, NLP, Model Evaluation, Imbalanced Data Handling	Cloud: AWS, Azure, Google Cloud (Firebase)
Data Visualization: Power BI, Excel, Reporting	Tools: GitHub, Jupyter, VS Code

PROFESSIONAL EXPERIENCE

Systems Engineer / Senior Systems Engineer – Infosys Ltd., India

Jul 2021 – Apr 2024

- Worked in the Data & Analytics team supporting data workflows and enterprise systems.
- Analyzed system logs and operational data to identify issues and improve system reliability.
- Resolved production issues and ensured smooth execution of data-driven workflows.

PROJECTS

Phishing Website Detection System

- Built ML-based phishing detection system using XGBoost.
- Developed Flask backend and React frontend for real-time predictions.
- Applied feature engineering and threshold tuning for improved detection performance.

Global Job Fraud Analysis Platform

- Developed fraud detection model using imbalanced datasets and TF-IDF features.
- Built React dashboard to visualize predictions and insights.
- Applied NLP techniques to identify suspicious job postings.

Smart Beach Crowd Density System

- Implemented crowd detection using YOLOv8 and Faster R-CNN.
- Processed real-world beach data for density estimation.
- Improved detection accuracy using image preprocessing techniques.

Instructor Availability System

- Built scheduling system using Firebase for real-time data handling.
- Developed dashboard insights for instructor availability tracking.

CERTIFICATIONS

- AWS Academy Graduate – Machine Learning Foundations (Dec 2024)
- AWS Academy Graduate – Cloud Foundations (Nov 2024)
- SAS Programming 1: Essentials (May 2024)
- Google IT Support Specialization (Jul 2020)
- Introduction to Cybersecurity – Cisco (Mar 2021)
